INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: <div style="text-align: center;">COUNTY</div>	2. Operational Period: <div style="display: flex; justify-content: space-between;"> <div>Date From: 07/02/18 Time From: 0700</div> <div>Date To: 07/03/18 Time To: 0700</div> </div>																				
3. Objective(s): Strategic Objectives <p>A full suppression strategy is to be implemented on the County Incident. Values at risk associated to the incident include human safety, private property and associated improvements, electrical power infrastructure, and cultural values. Minimize acres burned on all lands by utilizing effective and efficient tactics while maintaining safety first.</p> Leaders Intent <p>Work effectively with cooperative partners towards a common goal of protecting values in a safe and efficient manner. All incident assigned personnel should be prepared to take the appropriate actions regarding:</p> <ul style="list-style-type: none"> - Professional behavior, conduct timely/effective communications - Personal safety and safety of others, including driving slowly, safely and defensively - Implementation of tactics that offer a high probability of success - Manage fatigue by taking breaks and maintaining work/rest cycles Management Objectives <ul style="list-style-type: none"> - Fight fire aggressively while maintaining safe work practices to minimize threats to the public and emergency responders - Minimize damage to structures, private property and other improvements in the fire area - Protect natural, cultural, heritage resources - Continue to foster and maintain positive relationships with all local cooperators and stakeholders - Provide timely and accurate incident information - Maintain fiscal accountability keeping costs commensurate with values at risk Control Objectives <ul style="list-style-type: none"> - Keep the fire South of Hamilton Canyon - Keep the fire North of Miller Canyon - Keep the fire East of Knoxville Road - Keep the fire West of Highway 16 																					
General Situational Awareness: <p>Steep and rugged terrain, critically dry and receptive fuel beds, active area for fire history and drought stressed trees.</p> <p><u>S</u>top, <u>T</u>hink, <u>O</u>rganize, <u>P</u>roceed</p>

County Fire Incident Weather Forecast

FORECAST NO: 1 D/N
PREDICTION FOR: Monday - 24 Hour Shift
SHIFT DATE: July 2, 2018
FORECAST ISSUED: 2000 July 1, 2018

NAME OF FIRE: County Fire
UNIT: LNU
Incident Meteorologist: Jeff Tonkin

WEATHER DISCUSSION: Very hot and dry conditions will continue over the fire region with very subtle improvement in rh today along with a few degrees cooler in afternoon temps. Winds will continue to mainly be out of the north during the late night and early morning hours with a gradual transition to westerly in the early afternoon. The subtle trend in lower temps and higher rh values will continue into

WEATHER FORECAST TODAY (MONDAY DAYTIME):

WEATHER: Sunny.
MAX TEMPERATURES: 97-103
MIN HUMIDITY 2000 ft: 15-20%.
WINDS (EYE LEVEL):
1000 FT: North and northwest wind 5 to 8 mph with gusts to 15 mph through 1300 PDT.
Winds then becoming westerly 5 to 8 mph with gusts to 15-20 mph through early Evening.
LAL: 1 CWR: 0%
STABILITY / INVERSION: Moderately Unstable.
SMOKE TRANSPORT WIND: .

WEATHER FORECAST MONDAY NIGHT:

WEATHER: Clear but smoke possible.
MIN TEMPERATURES: 72-78.
MAX HUMIDITY: 22 TO 30%.
WINDS (EYE LEVEL):
West and Southwest 4 to 7 mph until 2000 PDT then...becoming north or down slope 4 to 6 mph Until sunrise.

OUTLOOK FOR TUESDAY: Sunny and a little cooler and more moist. Max Temps: 93 to 97. Min RH: 16 to 25%. Wind: Upslope or west 4 to 8 mph...gusts to 15 mph after 1200 PDT. Smoke Transport Wind: South Southeast 10 mph.

EXTENDED FORECAST FOR WEDNESDAY THROUGH FRIDAY: Partly Cloudy with a return to warmer temperatures possible. Mainly west winds 5 to 10 mph . Max Temps...95 to 100. Min RH 15-20%.

OBSERVED WEATHER FROM YESTERDAY (SUNDAY):

RAWS	MAX TEMP	MIN RH	WIND SPEED MPH / DIRECTION
BROOKS	106	13%	5-8 ... Gust 17 / WEST

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 002	TYPE OF FIRE: Wildfire
FIRE NAME: County	OPERATIONAL PERIOD: July 2, 2018 Monday
	TIME ISSUED: 2000
UNIT: CAL FIRE-Sonoma, Lake, Napa	SIGNED: 
	Typed/printed: Jon Heggie Fire Behavior Analyst

INPUTS

WEATHER SUMMARY: Daytime: Sunny with temps near 96°-101°. Relative humidity 16% - 27%. North 20 foot winds up slope/up valley 8-14 mph in the until 1300 transitioning to a west/northwest North at 4-10 mph:

Night time: Clear with temps near 63°-68° and relative humidity 54-68%. 20 foot winds will transition to the south at 6-10 mph w/ gusts to 20 mph after sunset and move again from the north after midnight at 7-13 mph

OUTPUTS

FIRE BEHAVIOR

GENERAL:

Fire behavior the last operational period was extreme with sustained terrain and fuel driven runs. The expected fire behavior this operational period is for dangerous to critical rates of spread under shifting winds with long range spotting. The fire is burning in a mix of chamise, manzanita, and scrub oak. Dense areas of mature costal oak are adding to fuel loading and burning with complete consumption. Live fuels have made a rapid descent into near critical levels and are burning with characteristics of late fall conditions. Plume development is likely and outflows winds can exceed more than 40 mph spreading fire in unpredictable directions.

Probability of Ignition 90-100%

Fine Dead Fuel Moisture 2-3%

SPECIFIC:

Branch II

Expect the fire activity to be slope and fuel driven as the wind should push the fire back towards previously burned areas. As the wind shift to a west wind expect increased fire activity as wind and slope align. The rates of spread in the grass can exceed 250 ch/h and 150 ch/h were wind and slope align. Spotting potential is extremely high due to continues light flashy fuels in this branch.

Branch IV

This branch was extremely active the previous operational period as the fire moved towards Hwy 128. The northern wind should continue to have heavy activity in this branch as the wind switches to the west. This west wind will potential push the fire towards County Rd 29 impacting this urban interface area. The rates of spread in the grass can exceed 250 ch/h and 150 ch/h were wind and slope align.

Branch VI

The fire is expected to continue to progression to the west towards Lake Berryessa and East Side Rd. Knoxville Rd may be alignment with north winds in the am and has the potential for accelerated fire behavior and drive the fire down Knoxville Rd. The rates of spread in the grass can exceed 250 ch/h and 150 ch/h were wind and slope align. Afternoon west wind should push the fire back onto itself and aid in control opportunities.

Branch VIII

The fire is well established on the west side of Blue Ridge and will be in alignment with am winds. The rates of spread in the grass can exceed 250 ch/h and 150 ch/h were wind and slope align. This area has more of brush fuel model at higher elevations but transitions to grass oak woodland. As the wind transitions from the west winds could potentially drive the fire towards Hwy 16.

AIR OPERATIONS: Smokey conditions may restrict air operations, don't rely on air support for any tactics

SAFETY

- Winds may change direction numerous times, monitor the weather the entire operational period.
- Fire behavior has been extreme, make all plans with this as a basis.
- Ensure that you have established, realistic escape route
- Be aware of potential plume development and resulting outflow winds

CALFIRE INCIDENT MANAGEMENT TEAM 3

SAFETY MESSAGE

Fatigue (n)

1. inability to respond to situation: the temporary inability of somebody to respond to a situation as a result of overexposure or excessive activity

- All PPE must be worn when working on the fire-line.
- Avoid complacency by focusing on the task at hand.
- Make sure everyone gets a briefing!
- Watch for aggressive driving. Drive Defensively with your headlights on.
- Monitor your hydration/nutrition intake and keep adequate supplies of each.
- Be alert to changes in wind direction and expect changes in fire behavior.
- Beware environmental hazards such as bee hives, poison oak, trip hazards, steep slopes and stump holes.

SNAG (Hazard Tree) SAFETY:

Size up snag hazards in work area

Never become complacent

Always look up

Get weather reports

Scout out parking, work areas, and safety zones

Advice co-workers of known hazards

Face your hazards and take appropriate action

Examine work area for other hazards

Take extra caution around heavy equipment

You are responsible for your own safety

INCIDENT RISK ANALYSIS ICS 215A

BRANCH	HAZARDOUS ACTIONS/ CONDITIONS	MITIGATIONS/WARNINGS/REMEDIES
ALL	FIRE AND DROUGHT WEAKENED TREES	<ul style="list-style-type: none"> Follow Hazard Tree Safety Guidelines IRPG (p. 22). Many of the trees within the fire area and along roadways are stressed. Snags are present. Be aware that trees may fall even if not impacted by the fire.
ALL	HEAT RELATED ILLNESS	<ul style="list-style-type: none"> Review "Specific Treatments" section of the IRPG (pg 103) for heat illnesses signs and treatment. Report any and all injuries to your Supervisor.
ALL	DRIVING HAZARDS	<ul style="list-style-type: none"> Watch your speeds. Watch for debris in roadways. Expect increase civilian traffic in the populated areas.
ALL	WEATHER	<ul style="list-style-type: none"> Hot and dry weather will continue. Watch for changing weather conditions. The local pattern is a daily afternoon wind shift. Stay prepared.
ALL	PERSONNEL SAFETY	<ul style="list-style-type: none"> All personnel are responsible for their personal safety. Be sure to wear all required PPE while on the fire line. Be cautious of snakes and yellowjackets within the fire area.
ALL	POWER LINES	<ul style="list-style-type: none"> Follow Power Line safety guidelines IRPG (p. 24). Treat all downed power lines as energized.
ALL	HYDRATION	<ul style="list-style-type: none"> Drink water before, during and after each shift. Be alert for signs of heat stress in yourself and others.
ALL	FATIGUE	<ul style="list-style-type: none"> Monitor incoming and outgoing resources for level of fatigue. Provide sufficient rest during the work cycle.
ALL	CIVILIAN PRESENCE	<ul style="list-style-type: none"> Be aware of civilians in the area. Civilians may be distracted by the fire operations. Stay alert.
ALL	COMMUNICATIONS	<ul style="list-style-type: none"> Check the communication plan for frequency assignments. Use human repeaters as needed.
ALL	BRIEFINGS	<ul style="list-style-type: none"> Make sure everyone gets a briefing on the plan for the day. Document this on your ICS 214.
ALL	LCES	<ul style="list-style-type: none"> Ensure that LCES is being utilized.
ALL	AIRCRAFT AWARENESS	<ul style="list-style-type: none"> Be aware of rotor wash when working near helicopters. Understand that hazard trees may react to helicopters overhead. Monitor assigned aircraft frequencies.
ALL	FIRE BEHAVIOR	<ul style="list-style-type: none"> Maintain situational awareness. Be prepared for extreme fire behavior in all presented fuel types. Live fuel moistures are Critically Low.
ALL	HEAVY EQUIPMENT OPERATIONS	<ul style="list-style-type: none"> Review IRPG (p. 80). Provide working space around equipment. Avoid working below equipment where rollout is a potential.
ALL	FIRING OPERATIONS	<ul style="list-style-type: none"> Utilize Risk Management Process IRPG (p. 1). Establish LCES prior to implementing burning operations.

Update

409.5

MEDIA – The California State Penal Code, Section 409.5(d) allows the news media to enter scenes of disaster, riot or civil disturbance. Properly identified members of the news media should not be restricted from entering locations specified within the code. However, this does not include crime scenes, private property and does not imply that the news media may interfere with incident operations while they are in the areas of concern. More information can be found [here](#).

CAL FIRE SOCIAL MEDIA POLICY – When assigned to a CAL FIRE incident, you will adhere to the CAL FIRE Social Media Policy, Section 0691. You can find further information about the CAL FIRE Social Media Policy [here](#).

Social Media

PHOTOGRAPHS AND VIDEOS OF INCIDENT – We are in a new era of media. Media no longer means news/broadcast industry, but now refers to anyone that has the capability to shoot video, photographs and post them onto social media sites in a matter of minutes. Unfortunately, we have seen some instances of photographs or videos that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens, it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could expose oneself to unwanted ramifications. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera loses their situational awareness.

The Public Information Office would like copies of the video and pictures that you safely took while not in an emergency situation, fire suppression activity or in an overhead assignment. Bring your video and pictures to the Public Information trailer; they will be reviewed and possibly uploaded to our many CAL FIRE social media sites. Remember, we don't want photographs or videos that depict unsafe, unprofessional or embarrassing circumstances, which are a serious breach of ethics.

LOST AND FOUND – The Information Section will manage lost and found items for the incident. If you have lost an item please leave your contact information and what you have lost at the Information Section. If you have found an item on the incident, bring the item to the Information Section with your contact information as well.

MAIL SERVICE – The Information Section can assist you with sending and receiving mail.

In readiness is all

COUNTY INCIDENT FINANCE SECTION MESSAGE

SHIFT TICKETS / HIRED EQUIPMENT VENDORS:

Line supervisors are responsible for completing shift tickets for all hired equipment resources working for them. Please turn completed shift tickets into the CAL FIRE Time Unit at the end of your shift. We will not accept shift tickets from vendors.

FEDERAL TIME:

Federal agency timekeepers are on site and available to assist our federal government cooperators with personnel and equipment time.

LOCAL GOVERNMENT TIME KEEPING:

The CAL OES representative is on site to handle F-42 and any questions you may have. If you are a local government cooperator from the Sonoma-Lake-Napa Unit (including Yolo County), please check in with the CAL FIRE Time Unit.

SUPPRESSION DAMAGES:

Please report all fire suppression damage to the Comp Claims Unit Leader. We will need location, lat/long, property owner, type of damage, etc. Examples of "fire suppression damage: Damaged fence, crush culverts, pipe damage, broken gates, etc.

ALL FINANCE FUNCTIONS ARE LOCATED IN THE "HOME ARTS" BUILDING NEAR THE OVER HEAD PARKING AREA

Absolutely no off site feeding or purchases charged to the incident. They must be pre-approved by the Logistics Section and/or Finance Section Chief.

**ROGER RAINES, FSC1, IMT3
MARA ZAVER, FSC1, IMT3**
